

To help protect Florida's wildlife, FWC encourages you to watch wildlife from a distance and use binoculars or zoom lenses to extend your view. Florida's manatee population needs the wildlife sanctuaries, springs and warm water sites to survive during the winter months. If you visit any of the wild manatee viewing areas, please give the manatees the space they need and do not disturb them if they are resting. Remember to "Watch" Florida's wildlife today so that future generations can "SEE" them in their natural environment. Please review the Manatee Viewing Guidelines.

Manatees in the Wild:

What is the best way to observe a wild Florida manatee?

To help protect Florida's wildlife, the Florida Fish and Wildlife Conservation Commission (FWC) encourages you to watch wildlife from a distance and to use binoculars or zoom lenses to extend your view. Enjoy viewing wild Florida manatees at these locations (call ahead for current manatee viewing information):

8. [Blue Spring State Park \(FPS\)](#)

Orange City 386-775-3663 *Entrance fee.*
(Spring headwater and spring run on St. Johns River)
Seasonal manatee programs held during winter months when manatees are in warm waters of spring run.

9. [Crystal River National Wildlife Refuge \(USFWS\)](#)

Crystal River 352-563-2088
(Sanctuaries located in Kings Bay and surrounding waterways)
During winter, view manatees near warm water sanctuaries via boat or from boardwalk near Three Sisters Spring (with boardwalk

viewing on a limited schedule). Vendors offer in-water tours for a fee. Follow USFWS viewing guidelines in this area. During warm weather manatees disperse from the sanctuaries and spread out along the coast—sighting manatees may involve some travel and luck.

10. [Edward Ball Wakulla Springs State Park \(FPS\)](#)

Wakulla Springs 850-561-7276 *Park entry & boat tour fees.*
